### The Legislature.

The Legislature of our State assembles at Augusta this day. There is little important business to transact and no very good reason for a long session. But We have very little liope of there being a short one.

The Locos are mustering up their forces for a distribution of the offices, and Ponobscot expects a fat share. It is uncertain what experiments the Locos will undertake, but they will probably talk large and do little, and that little slowly.

Further from the Santa Fe Expedition. On the 20th ult. a mercantile house of N. Or. leans received a letter dated at Chihualhua, Nov. to Texas or to the devil, alone, as he prefers. 4th, addressed to the Texan Secretary of War, Here he cannot stay, much less live. An extragiving a detailed account of the capture of the writer by Col. Wm. Cook and Dr. Richard Collescaped Brenham, two distinguished members of the Expedition, who were, at the time of writing together with such of their associates as had not been put to death, prisoners in Mexico. From this narrative it appears that the last published govern at some future day : statement of the capture of the expedition after twelve hours hard fighting and the destruction of America on the shores of Hudson Bay, along surrendered to an overwhelming force of Mexicans, without firing a single gun. The manner in which this almost incredible result was accomplished, is described by the writer of the letter; and the greater part of his history is so strange a narrative, and, withal so interesting to the, pub-

The advance party, of about 100 men, had reached the neighborhood of Santa Fe, leaving the-rear guard, with the wagons and artillery, some two hundred miles behind. Four or five men were sent forward to announce the purposes of their mission to the authorities, and to say that they had come more as friends than foes that they wished to cultivate the acquaintance of their neighbors and open commercial relations with them, and not to provoke hostilities. Of the avant couriers, one was Capt. Lewis and another was Mr. Kendall, editor of the New Orleans Picayune. They were seized, and two or three, some say four of them, were by order of Gov. Armijo, immediately shot.

The Governor, then, with a large body of New Mexicans in arms, went out to salute their visiters. The latter had, however, taken up a strong i position, and prepared to act on the defensive should it be necessary hitherto ignorant of the fate of their emissaries, as of the reception they were likely to meet. In a ravine formed by the freshets, having a stream of some magnitude in the rear, stood Col.

Cook and his men, confident that from this position they could not be dislodged. Here they waited the approach of their adversaries, doubtful yet whether to regard them 42 friends or foes impatient for the order to fire, yet restrained by their pacific instruction from the Texan Government, they watched for some act of aggres-sion to justify them in testing the temper of their guns. At this critical moment comes forward Capt. Lewis, accompanied by a nephew of the Governor, who speaks and understands the English language well, and begs Capt. Cook not to are, nor be concerned. He assures him there is no need of an engagement, as the Governor is Or old friend Rogers, of the Haverhill disposed to treat them kindly, and that articles of agreement had been already entered into for an armistice, which might lead to a friendly alliance. On the other hand, he represented the Mexican forces as numerous and strong that in an hour they would be surrounded by 5000 men, all armed and obediens to their chief that it was in vain to resist, and the Governor was anxious

> than they had any right to expect. These representations and assurances, coming from their own interpreter, and supported by the Governor's nephew, exercised a fatal influence. They inclined to listen to terms of capitulation, which were agreed upon as follows: they were to lay down their arms, and return forthwith to -Texas; their persons were to be safe and invidelate: the Governor was to protect them against Eiverpool. the nonulace to escort them to the borders of Texas, and there having restored to them their

guns, despatch them for their homes. These articles were ratified in the usual manner in such cases, and the Texan party, in good inoment for reflection; and an error in his dechion o ay fix forever the fate of his country in

P. S. News has arrived here that the command under Gen. McLood had surrendered in a manner similar to Col. Confessions of a Counterfeiter.

The Upper Mississippian, printed at Rock Istand, Illinois, contains a long article which purports to be the confession of Samuel S. Cluse, a counterfeiter, recently sentenced to the Alton Penitentiary for tour years. He seems to have figured very largely as a bogus-maker and counterfeiter of bank-notes, and estimates the number of persons engaged in the business at about three hundred scattered over Missouri, particularly in the Platte country, Illinois, Iowa, Indiana, and Michigan. He gives many particularly of his operations names person and places in all of the States and, if teuc, unfoldes a mass of de pravity in persons who, for aught we know, are respected as good citizens.

The following letter from J B Light, Esq is wor-

SIR It ook one of Lorrame's Vegetable Pills last evening for a pan in my head that had effected me for several days occasioned by taking cold. I soon feit very calm, and quiet, and a state of general repose came on which had great charins and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morn ing in my usual state of health, and believe it is my duty to recommend this medicine.
